

3-8-2010

  
First of all, we would like to say that we never want to talk to you or see you again in our lives. We would greatly appreciate it if you would stop trying to contact/see us. We feel like you are stalking us and we do not like it. We would also appreciate it if you remove all pictures and references of us from the Internet. Our biological father is dead. Who you are now means nothing to us.

The events of our lives were not normal. No one, especially children, should have to deal with a biological father that sexually molested them as you did. It is truly a miracle that we have grown up to be as "normal" as we are. After many years of therapy, there are still things that we will never forget. The events that took place in our childhood, deep down inside, you know that you did and you know they were wrong. The memories that we have are nothing that our Mom or anyone told us, they are the truth.

Now that we are grown, we should not have to live in fear of when you are going to try and contact us, and what you are going to do. We never want to have any type of contact with you. We have moved on. What happened in the past is done and you have no place in our future or will you ever.

One final thought, our Mother never told us that you were a horrible person. We told the things that you did to us to Dr. Levy and then Dr. Levy told our Mother. As we've grown up, our Mother has encouraged us to pursue whatever we liked to. One thing that we have never wanted to pursue was contact/a relationship/anything to do with you. Our Mother never used fear to achieve anything. The fear you have within you is because you fear the truth would have been discovered and you would have faced criminal charges and be in jail where you should be.

Stop intruding in our lives and just get on with your own. We have faith that God will keep you away from us so that we can get on with our lives without these annoying letters/attempts at contact from you.

Lau  and Cam
